

Liquid Measure: Teaspoons and Tablespoons

- ➔ Begin with a measuring teaspoon and a measuring tablespoon. Fill up the teaspoon and empty it into the tablespoon. Do this three times. The student sees that one tablespoon equals three teaspoons.

- » 1 tablespoon = 3 teaspoons
- » **Abbreviations:** Tablespoon = Tbsp | teaspoon = tsp

- ➔ **Example 2:** How many teaspoons are in four tablespoons?

- » $4 \text{ Tbsp} = 4 \times 3 \text{ (tsp in a Tbsp)} = 12 \text{ tsp}$
